

UIC

Department of Philosophy Summer 2016 Course Descriptions

4-WEEK SESSION

PHIL. 102 Introduction to Logic

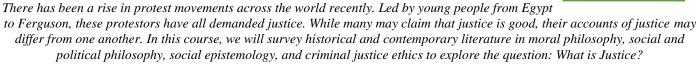

This course fulfills the university's Quantitative Reasoning requirement. Logic is the science of correct reasoning. You will learn formal rules of inference which allow you to evaluate and create arguments in English. To apply these rules, you will learn to translate sentences from English into logic and construct proofs like in geometry. If you enjoy puzzles or want to improve your ability to read, think and write critically and carefully, give logic a try! Natural World - No Lab course.

MTRF 9:00am - 11:55am - Hanck, Tyler

MTRF 1:00pm - 3:55pm - Brandon, Kidd

8-WEEK SESSION

PHIL. 100 Introduction to Philosophy

TR 10:45am - 1:15pm - Cherry, Myisha

PHIL. 102 Introduction to Logic

This course fulfills the university's Quantitative Reasoning requirement. Logic is the science of correct reasoning. You will learn formal rules of inference which allow you to evaluate and create arguments in English. To apply these rules, you will learn to translate sentences from English into logic and construct proofs like in geometry. If you enjoy puzzles or want to improve your ability to read, think and write critically and carefully, give logic a try! Natural World - No Lab course.

TR 5:30pm - 8:00pm - Haar, D.

MWF 8:00am - 9:40 - Shoaibi, N.

PHIL. 107 WHAT IS ART?

What, if anything, does hip hop have in common with classical music? What, if anything, does Leonardo da Vinci's "Mona Lisa" have in common with a work of street art? In this course we will explore issues such as what art is, and why we value it, among others. We'll then bring our answers to these issues to bear on our experience of

actual works of art in Chicago.
This course satisfies the Creative Arts requirement.

MW 5:30pm - 8:00pm - Moscaritolo, A.

PHIL. 116 MEDICAL ETHICS

Topics include questions like, to what extent do patients have a right to control their own care? Do e.g. some mental illnesses take away a patient's right to accept or refuse care? What if a patient's choice is in tension with public health policies? The course examines similar moral questions and dilemmas concerning the right of patients to self-determination. No background in philosophy is presupposed.

MW 5:30pm - 8:00pm - Hadisi, R.
